Re. Completed Sale of Dean Engineering Limited

Dear Scott,

I write to reference the service provided by Acquire Business Sales Limited in the Sale of our Company which successfully completed on 12th May 2017.

Prior to contacting Acquire and engaging the service, we met with several other agents that handle company sales.

We appointed Acquire because of your clear commitment to protecting the confidentiality of our business sale, your professional approach to identifying strategic buyers, and your obvious nationwide profile.

Despite being more expensive than the other agents we spoke to, we also recognised that Acquire offer significant expertise in the sale of businesses with specialist activities, and were a particularly good fit to handle our company sale in the UK engineering and manufacturing sector.

We were impressed with the quality of the sales documents you prepared on our Business and the regularity with which you updated us on sale progress.

You introduced many qualified potential buyers to our Business who signed the NDA including the eventual purchaser, a complimentary group of engineering companies.

We are delighted with the outcome and have no hesitation in recommending Acquire to other business owners looking to sell.

Thank you once again for all your help,

Andy
