Dear Scott,

A big thankyou to you and all the team at Acquire for helping me and Bridget with the sale of D&T.

The support and encouragement that you have given us over the past 6 months has been invaluable.

I'm sure it would have fallen apart a few times if not for your subtle perseverance and calming input.

We would have no hesitation in recommending your company to anybody wishing to sell their business.

If you find yourself this far south be sure to give me a call.

Best Regards

Mike & Bridget Thomas
